

FOR TEAMS AND ORGANIZATIONS

Benefits for Companies

One course that gives your whole team the same safe, practical way of working with AI, aligned with the frameworks your governance already speaks.

- 1 The AI literacy the EU AI Act expects.** Practical, safe, responsible use for employees. Supports your compliance efforts.
- 2 One shared method.** Everyone briefs, checks, and shares the same way. Fewer risky habits, fewer surprises.
- 3 A state-of-the-art practice playground.** Staff practice on built-in labs and prepared examples, not on your company data.
- 4 Progress reports.** See who started, who finished, and how each learner is doing along the way.
- 5 Bulk discounts.** Team licenses priced to scale. The more seats, the better the rate.
- 6 GDPR compliant.** Learner data is handled according to EU data protection rules.
